

ATTACHMENT A PURPOSE OF ATTACHED DOCUMENTS

Attachment B – Draft Vision Statement

This document is intended to provide clarity about the broad long-term vision for the transformation of the system of care components of the mental health system.¹ The intended audience for this document is the stakeholders in the state and local planning process.

Attachment C – Draft Required Contents, County Requests for Funding for MHSA Planning

Five percent of the fiscal year 2004/05 MHSA funding is dedicated to local planning. This document provides the requirements for requests by counties for this funding. Consistent with the MHSA, DMH will consult with the counties regarding the allocation methodology for these local planning funds. Subsequent to that, the principles for the allocation methodology will be posted on www.dmh.ca.gov on December 14, 2004 and will be an agenda item for discussion at the stakeholder meeting on December 17, 2004.

Attachment D – Draft County Readiness Self-assessment for Implementation of the MHSA – Systems of Care Services Component

DMH expects to provide guides to self-assessment for each component of the MHSA planning process. The initial component is focused on the systems of care. Additional draft self-assessment guides specific to the child/youth, adult and older adult systems of care will be also provided. In addition, draft guides for information technology and for an initial workforce analysis are under development.

¹ System of care components refers to the sections of the initiative addressing services to children, adults and older adults with severe mental illness. Welfare and Institutions Code 5878.1-3, 18257 and 5813.5.
